and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

My TracFone service is my lifeline when I am away from the house. I am a disabled Amercian on S.S. and this phone has saved my life already once when needed help on the road due to needing medical attaction away from the home. The cost of living has gone out of site and have made it very diffacult to stay on my own and every increase no matter how small it seems to the law makers or the working class cuts into my cost of living. Thank you for you time.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

John Beaver
